to speak with one of our Rayaldee®  
Care Managers **Monday through Friday**  
**from 8am-8pm ET**

# OPKO CONNECT

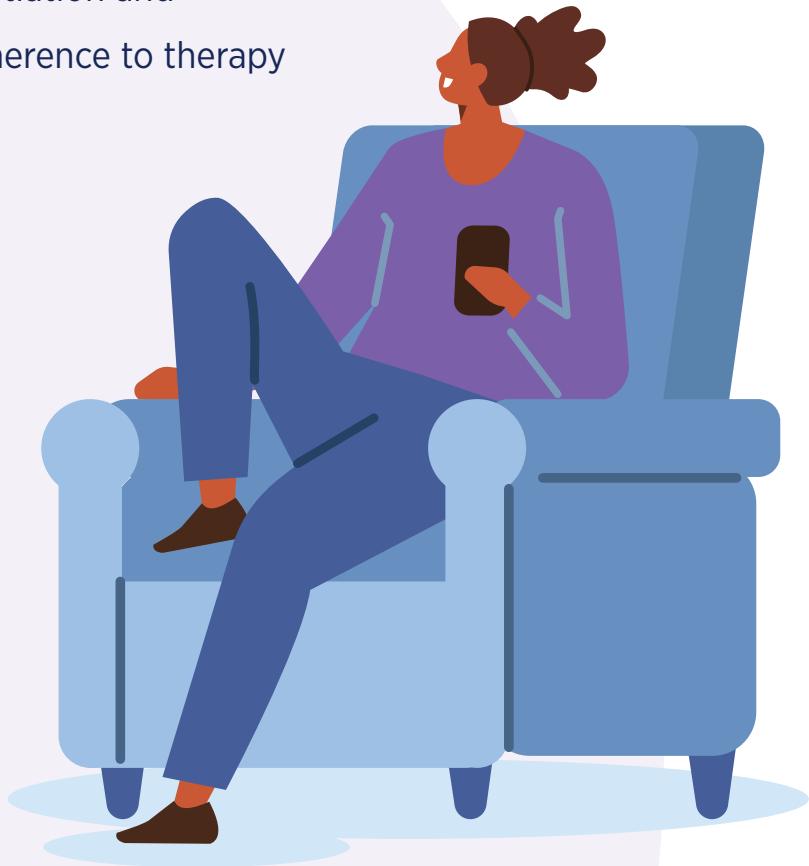

PROVIDES COMPREHENSIVE SUPPORT

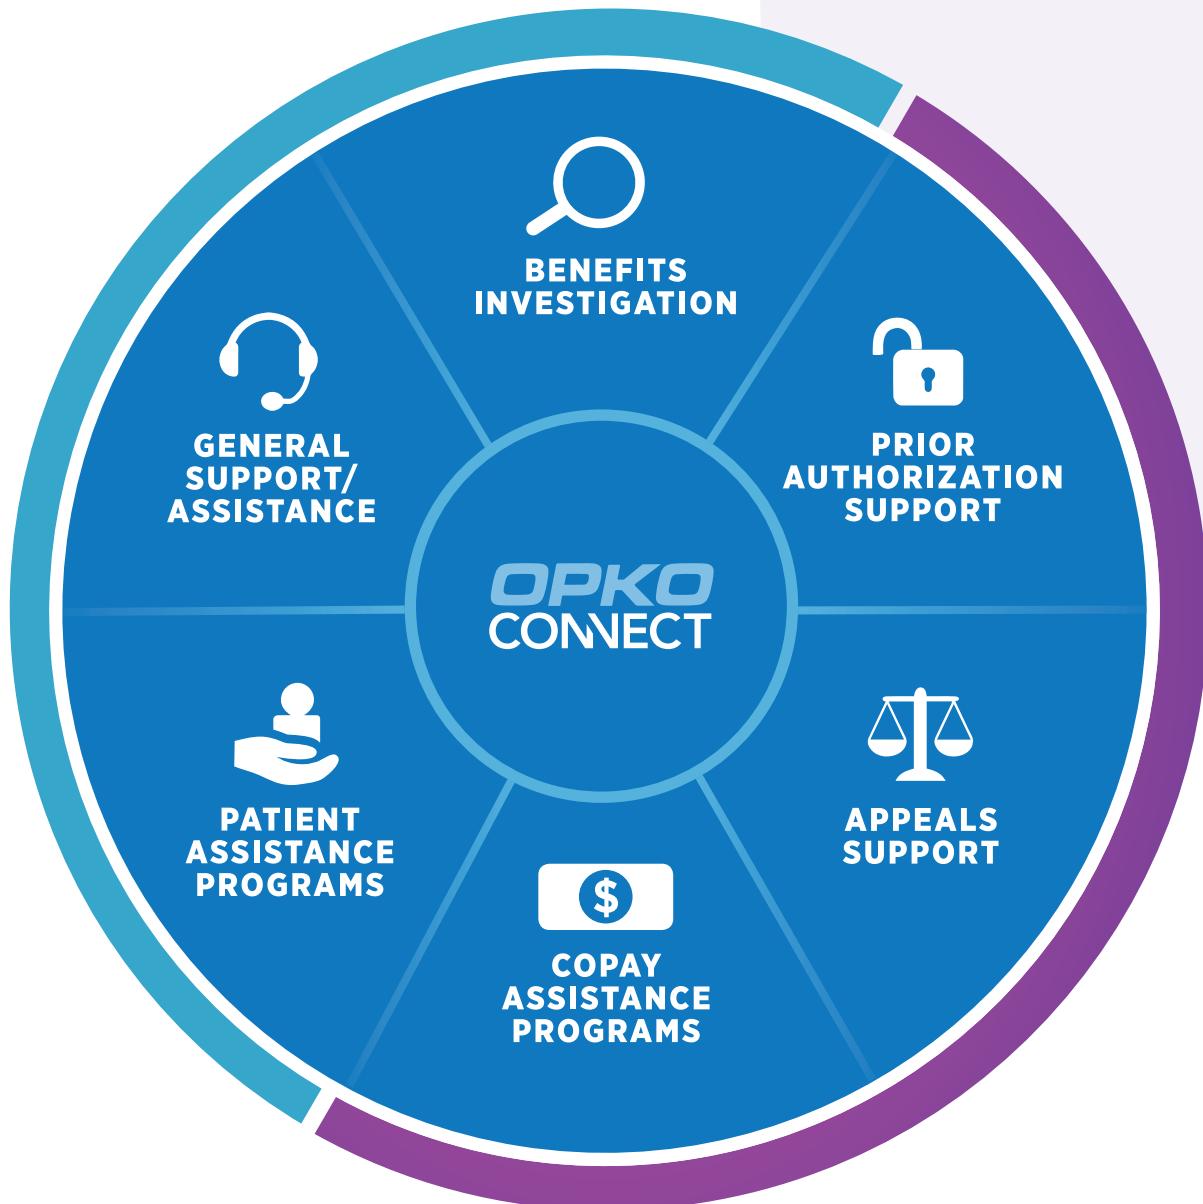

**Partnering with patients and their care team  
to gain affordable access to Rayaldee® (calcifediol)  
extended-release 30 mcg capsules**

As part of our commitment to positively impacting lives, OPKO Renal is pleased to offer OPKO Connect, a centralized resource dedicated to helping patients access Rayaldee® as quickly and as easily as possible.

**OPKO Connect will help:**

- Verify prescription insurance coverage for the patient
- Assist with insurance required Prior Authorizations
- Obtain copay assistance for the patient
- Minimize time to Rayaldee therapy initiation and contact patients to help maintain adherence to therapy

For your convenience,  
additional information and  
program resources are  
available both online  
and by phone:

VISIT US ONLINE AT  
[www.Rayaldee.com](http://www.Rayaldee.com)

OR CALL 1-844-414-OPKO (6756) to speak  
with one of our Rayaldee® Care Managers  
Monday through Friday from 8am-8pm ET

## GENERAL SUPPORT

OPKO Connect will provide general support services such as:

- Assisting patients, caregivers, healthcare provider offices, and pharmacies with **product or program questions**
- Assisting patients, caregivers, and healthcare provider offices with **insurance coverage questions**
- Obtaining copay support or financial assistance for patients
- Resolving claims submission issues on behalf of patients

## BENEFITS INVESTIGATION SUPPORT

OPKO Connect will **assist with investigating** a patient's insurance coverage and **benefit design** for Rayaldee® (calcifediol) extended-release 30 mcg capsules.

Our Rayaldee® Care Managers will verify:

- **Prior Authorization (PA)** requirements
- **Patient deductibles** and out-of-pocket costs
- **Alternative insurance coverage that may be available to patients**, such as Medicare, Medicaid, and the low-income subsidy (LIS) program

To receive this support for your patients, please complete the Rayaldee® Service Request Form (SRF) provided on the OPKO Connect Resources page at [www.rayaldee.com/hcp-financial-support/](http://www.rayaldee.com/hcp-financial-support/) and fax it to us at **1-844-660-7083** or email to [opkoconnect@rxallcare.com](mailto:opkoconnect@rxallcare.com).

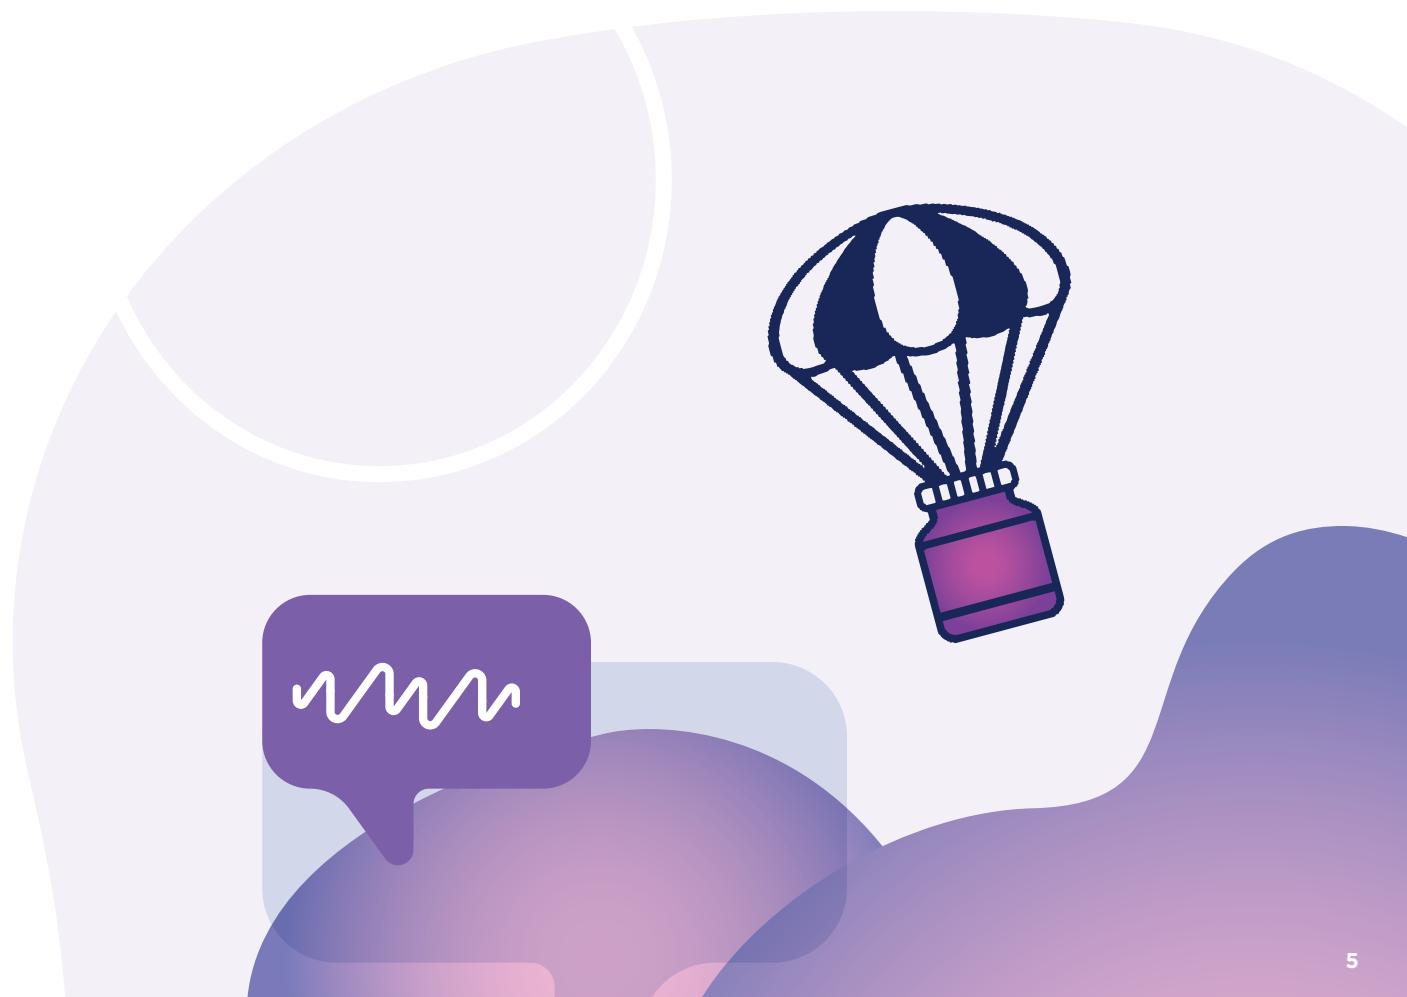

## PRIOR AUTHORIZATION SUPPORT

OPKO Connect will **assist with insurer-required prior authorizations** (PAs) for Rayaldee® (calcifediol) extended-release 30 mcg capsules.

### **Rayaldee® Care Managers will provide support with:**

- Supplying insurer-specific PA forms to the healthcare provider's office with instructions on how to complete and submit the form to the insurer
- Confirming receipt of PA submission with the insurer to help facilitate a timely review
- Contacting the patient and their healthcare provider's office to confirm status
- Determining appeals option if the PA is denied

## APPEALS SUPPORT

OPKO Connect will **assist with the appeals process** if a PA is denied by the insurer.

**Rayaldee® Care Managers will provide support with:**

- Confirming the reason for the PA denial
- Supplying a Rayaldee letter of medical necessity template (appeal) to the healthcare provider's office with instructions on how to complete and submit the appeal to the insurer
- Confirming receipt of appeal submission with the insurer to help facilitate a timely review
- Contacting the patient and their healthcare provider's office to confirm status
- Determining Patient Assistance Program (PAP) option if the appeal is denied

## COPAY ASSISTANCE PROGRAM

**Eligible commercially insured patients** can fill their Rayaldee prescription for **\$0 with eVoucherRx™**, a program from RelayHealth that **automatically applies copay savings at the patient's pharmacy**.

If the patient's pharmacy is not in the RelayHealth **eVoucherRx™** network, then **OPKO Connect will provide the pharmacy a copay card that automatically applies the \$0 copay at the pharmacy for eligible commercially insured patients**.

**Contact OPKO Connect at 1-844-414-OPKO (6756) with any questions.**

## PATIENT ASSISTANCE PROGRAM (PAP)

For patients that do not have insurance coverage or are unable to afford their Rayaldee copay, OPKO offers a **free drug patient assistance program**; eligibility criteria apply and annual re-enrollment is required.

### In order to determine a patient's eligibility for this program:

- The healthcare provider's office must submit a completed Service Request Form (SRF) to OPKO Connect by fax at **1-844-660-7083** or email to [opkoconnect@rxallcare.com](mailto:opkoconnect@rxallcare.com)
  - If an SRF was previously submitted prior to identifying the need for patient assistance, a new form is not required from the healthcare provider office
- Rayaldee® must be prescribed for on-label usage
- Upon receipt of the SRF or upon identifying the need for patient assistance, OPKO Connect will contact the patient to obtain a completed PAP application and the necessary supporting financial documentation
- Once a determination has been made regarding eligibility, OPKO Connect will contact the patient and their healthcare provider's office to confirm status

### FOR MORE INFORMATION ABOUT AVAILABLE SERVICES AND TO ACCESS PROGRAM RESOURCES

**VISIT US ONLINE AT** [www.Ryaldee.com](http://www.Ryaldee.com)

**OR CALL 1-844-414-OPKO (6756)**  
to speak with one of our Rayaldee®  
Care Managers **Monday through Friday**  
**from 8am-8pm ET**

**Rayaldee is indicated for the treatment of secondary hyperparathyroidism in adults with stage 3 or 4 chronic kidney disease and serum total 25-hydroxyvitamin D levels less than 30 ng/mL. Rayaldee is not indicated in patients with stage 5 chronic kidney disease or end-stage renal disease on dialysis.**

- **Hypercalcemia:** Excessive administration of vitamin D compounds, including Rayaldee, can cause hypercalcemia and hypercalciuria. Severe hypercalcemia due to substantial overdosage of vitamin D and its metabolites may require emergency attention. Patients should be informed about the symptoms of elevated calcium.
- **Digitalis toxicity:** Potentiated by hypercalcemia of any cause. Monitor serum calcium and signs and symptoms of digitalis toxicity more frequently when initiating or adjusting the dose of Rayaldee.
- **Adynamic Bone Disease:** Monitor for abnormally low levels of intact PTH levels when using Rayaldee and adjust dose if needed.
- The most common adverse reactions ( $\geq 3\%$  and more frequent than placebo) were anemia, nasopharyngitis, increased blood creatinine, dyspnea, cough, congestive heart failure and constipation.
- Care should be taken while dosing Rayaldee with cytochrome P450 inhibitors, thiazides, cholestyramine or drugs stimulating microsomal hydroxylation due to the potential for drug interactions.
- Serum calcium should be below 9.8 mg/dL before initiating treatment.
- Monitor serum calcium, phosphorus, 25-hydroxyvitamin D and intact parathyroid hormone (iPTH) 3 months after starting therapy or changing dose.

Please see accompanying Full Prescribing Information or view at [www.Rayaldee.com](http://www.Rayaldee.com)
